Why use us?

Finding the right telesales person is extremely difficult.

You either have to recruit someone, train them, manage them, interpret and then harness their results. This can be a long and costly process (regardless of whether you recruit yourself or go through an agency).

Or else you can engage a call centre, which is also very costly, more importantly you have very little control over someone who is calling your prospects in your name!

We take this hassle away from you! We have the experience; we know how to get the job done, and how to produce results that will bring you business. Importantly, as we are freelance, we also have the hunger to make sure that we do the type of good job that ensures you keep coming back to us.

In short, with us you get experienced, tenacious telesales people, ready to produce results without any hassle!

We can even arrange a telesales pilot for your project to assess the likely success of the telesales service.

How much does it cost?

We believe in keeping things simple, therefore there are no hidden costs, nor do we charge monthly retainers for project management or reporting. We charge a fixed hourly rate of £17.00 per sales-person-hour. This is an all-in cost, which includes call charges to local and national numbers.

We believe our solution is far more cost effective than hiring your own telesales person or outsourcing to a call centre.
